 **MANITOU**
HANDLING YOUR WORLD

A solution for every application

Founded over 60 years ago by the Braud family, Manitou Group now operates worldwide. As a leader in all-terrain materials handling, the Group designs, manufactures, distributes and services equipment for every industry sector.

Globally renowned for premium quality and versatility in construction and agriculture, you can expect exactly the same quality and standards from our full range of industries-oriented solutions.

With a complete range of tailored machines that deliver exceptional productivity in unusual situations from narrow warehouses to weather-battered ports, Manitou ensures the right performance, anywhere, anytime.

Expertise and service on a daily basis

Focus on your core business and rely on our network of professionals to support your day-to-day operations. Take advantage of our service to optimise the use of your machines and improve your daily productivity.

1 500 dealers around the world

Our dealerships in over 140 countries offer exceptional service, while Manitou trained experts provide first class technical support.

Extended warranty

Safeguard your business from unforeseen, out-of-budget expenses, with full support for parts and labor for up to 6 years or 6 000 hours.

Original spare parts

Using genuine, original spare parts is the only way to ensure your Manitou machine's performance and extended lifespan.

8 000 expert technicians at your service

Minimise downtime, get expert advice, and rely on qualified professionals to maintain and repair your equipment.

Providing your unique solution

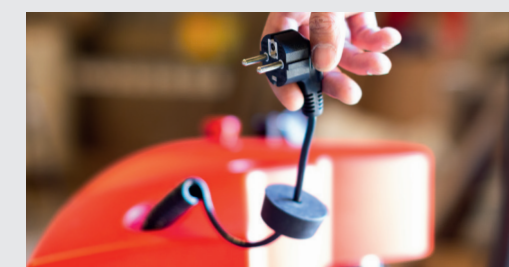

All our special adaptations are designed and approved by our engineering team, with the necessary CE certificates and manufacturer's warranty.

Agri-food industry solutions

"For a hot, humid and salty environment, Manitou offered us a tailor-made solution: the range of all stainless steel products. The machines are used for moving products and materials, stacking and feeding production lines. Advantageous in terms of hygiene and durability over time, we also save on maintenance costs."

Xavier BAUDRY,
Fleet manager

Light Lifting Equipment RANGE

EH Model
Manual pallet truck
for basic daily transfer.

EP Model
Electric pallet trucks with a capacity from 1,5 ton to 5 tons.

Horizontal transfer RANGE

CT Model
Tow from 3 to 5 tons.

CI Model
Optimise your logistics
thanks to order pickers
up to 2 tons.

Robotic & autonomous solutions

Our new range provides complete autonomy across your handling operations in the industrial and logistics sectors, including: order preparation, goods conveying, truck loading and unloading, and feeding of production lines.

Easy to set up, the machines adapt to your warehouse environment, with tagless person detection and tracking capabilities. Real-time data analysis further enhances operations efficiency.

Low lifting RANGE

ES Model
Wide range of stackers up to 3 tons capacity to answer all your requests. The counterbalanced version will give you optimised solutions for all kind of loads.

High lifting RANGE

ER & EMA Models
Our ER and EMA ranges are built for your most intensive logistics needs by providing unmatched compactness in narrow aisles and lift heights up to 12 meters.

“

Simple to use and robust,
Easy pallet trucks simplify
the work of our team every day.
With the right equipment
supported by our nearby dealer,
we can always count on Manitou.
