

CAPACITIES

Max. capacity	8818 lb
Max. lifting height	57 ft 1 in
Max. outreach	44 ft 3 in

WEIGHT AND DIMENSIONS

Length to face of forks	20 ft 5 in
Overall width	7 ft 10 in
Overall height	8 ft 7 in
Wheelbase	9 ft 6 in
Ground clearance	1 ft 3 in
Overall cab width	2 ft 9 in
External turning radius (over tyres)	13 ft 3 in
Unladen weight (with forks)	25419 lb
Forks length / width / section	47 in x 5 in x 2 in

ENGINE

Engine brand	Kirloskar
Engine norm	BS-V
Engine model	4R1190TA- HT BSV
Number of cylinders / Capacity of cylinders	4 - 290 in ³
I.C. Engine power rating - Power	74.50 Hp / 54.80 kW
Max. torque / Engine rotation	295 ft/lbs @ 1200 rpm
Drawbar pull (Laden)	10200 daN

TRANSMISSION

Transmission type	Torque converter with manual transmission
Number of gears (forward / reverse)	4 / 4
Max. travel speed	16 mph
(may vary according to applicable regulations)	
Parking brake	Manual
Service brake	Oil-immersed multi-discs braking on front & rear axles

HYDRAULICS

Hydraulic pump type	Gear pump
Hydraulic flow / Pressure	27 US gpm-3626 PSI

TANK CAPACITIES

Engine oil	3 US gal
Hydraulic oil	32 US gal
Fuel tank	26 US gal

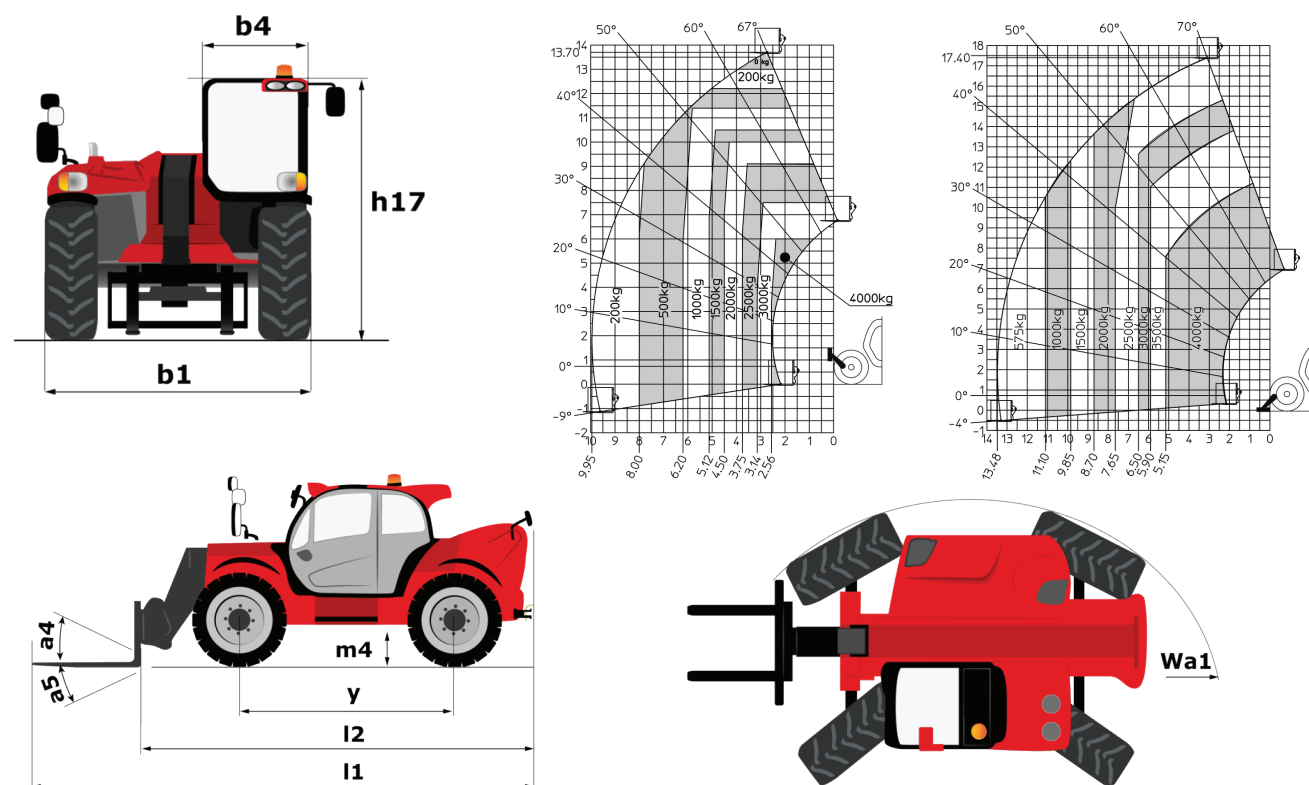

NOISE AND VIBRATION

Noise at driving position (LpA)	85 dB
Noise to environment (LwA)	110 dB

MISCELLANEOUS

Controls	Monolever

A LEGACY OF 66 YEARS

From the invention of the first all-terrain forklift truck to designing, manufacturing, distributing, and servicing different equipment for construction, agriculture, and industry sectors, we have been there to handle it all.

Today, our product range includes fixed all-terrain telescopic forklifts, compact wheeled and tracked skid-steers, backhoe loaders, scissor lifts, and different accessories. With **1050 dealers in 140 countries**, we continued evolving and innovating to offer the best solution for our customers.

MANITOU MXT- RAISING THE BAR EVERYDAY

The toolbox option will provide an extra space to store tools.

With a roof wiper motor option, there will be better visibility at full height.

The new diesel tank capacity of 100L reduces the fuel top-up frequency.

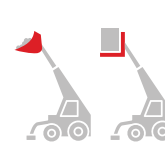

HOW DO MANITOU TELEHANDLERS MAKE A DIFFERENCE?

Performance that Exceeds Expectations

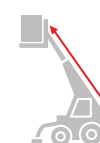

Works well in all conditions, the Manitou Telehandler is an all-terrain machine that can work on a **47% slope gradient**. With a **turning radius of 3.9m**, **4 steering wheels** with **3 steering modes** improve performance & save time.

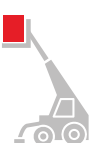

Load and Unload
with speed and
precision

Ready for Every Task
with assortments
like jibs, cranes, and
winches

Go Beyond Limits
with **17.40 m lift
height and 13.48 m
working outreach**

Built to Handle More
up to **4 tonnes**
with absolute
confidence

Strength to Handle Any Challenge

The cab interiors and mudguards are crafted from durable materials, ensuring exceptional robustness and longevity for the machine. Built to Level 2 ROPS/FOPS standards, the cab guarantees superior safety. The axles are equipped with oil-bathed multi-disc brakes for reliable performance, while other components are sourced from trusted, renowned suppliers, ensuring easy availability and quality assurance.

One Machine That Does It All

The versatile range of attachments helps you do various tasks - preparing soil, mixing concrete, loading/unloading trucks and containers, handling materials, earthmoving, and more. Also, quick and easy attachment changes ensure maximum productivity on any job site. With the auxiliary hydraulic line, you can effortlessly use attachments like the sweeper or 4-in-1 bucket, enhancing the machine's efficiency across tasks.

Effortless Efficiency in Every Task

The machine features two front steering wheels for enhanced safety. It offers quick and easy operations like boom lifting/lowering, telescopic boom extension/retraction, scooping/tipping, attachment hydraulic line control, and 30-second start-up. The dashboard and levers are also user-friendly.
